

Putting words to work with **Dragon Professional Anywhere**

AI-powered, professional grade speech recognition that integrates directly into enterprise workflows.

Empower knowledge workers and field professionals to create high-quality documentation with Nuance® Dragon® Professional Anywhere cloud hosted speech recognition. Organizations can streamline repetitive and manual documentation processes, while saving time for IT staff and boosting productivity and efficiency for busy professionals across work teams.

Highly scalable and ready-to-use, Dragon Professional Anywhere works across your existing infrastructure of Windows-based devices, including virtualized and remote-access PCs. The lightweight Windows client application downloads and installs in minutes and provides an encrypted connection to its hosting infrastructure, Microsoft Azure. Dragon Professional Anywhere can be customized to include sector specific terms, phrases, and formatting rules that ensure a fast and accurate speech recognition experience. Additional features include customizable voice commands and Auto-Texts, navigation and voice-based correction.

Easy to install, even easier to use

Dragon Professional Anywhere can be installed on Windows-based enterprise workstations or laptops in just minutes without the need for complex configurations. Once installed, front- and back-office employees alike simply open the app from the Windows Start menu, place the cursor where they want speech-recognized text to appear, and start dictating into Windows-based applications (i.e., Microsoft Outlook, Microsoft Word).

Benefits at a glance

- Achieve faster documentation turnaround
 - Enable employees to focus on their “real job” rather than administrative work
 - Cloud-based technology ensures users have “always latest” access to the latest enhancements
 - Extend existing investments and increase quality documentation within enterprise systems
 - Eliminate the need for costly transcription services or inefficient manual processes
 - Reduce liability risks associated with inaccurate or incomplete documentation
 - Ready to use, requires no speech profile training, includes accent detection and automatic microphone calibration
 - Simplify IT’s job with a solution that’s easy to deploy, maintain and centrally manage
 - Affordable, subscription-based pricing with little upfront capital investment makes it easier for public and private sector enterprises to plan budgets with predictable expenses
-

Portability to work at any workstation: Dragon Professional Anywhere provides secure, accurate, and portable cloud-based enterprise speech recognition across a wide range of Windows devices. And with the included Dragon Anywhere Mobile app, Nuance's professional-grade dictation for iOS® and Android™, field professionals have even more freedom to dictate from virtually anywhere.

Fast, accurate, and highly customizable: Fast, extremely responsive, and highly accurate out-of-the-box enterprise speech recognition with speech profiles that can be easily accessed across multiple devices.

Hands-free convenience with wake-up word and always listening: Offer professionals better control, ease-of-use, and greater freedom, allowing them to simply say "Hey Dragon" to turn on the microphone, and completely eliminate the need for manual controls or clicks with always listening.

Create multi-step commands: Save time with new enhanced step-by-step command creation to execute a series of actions with a single utterance.

Easy to install and maintain: No complex configurations, one-click installation, and automatic updates mean less work for your IT staff, less hassle for your employees, and users can be up and running within minutes.

No limit on productivity: Speak freely and as much as you like with no per user limits – business professionals can stay productive anywhere and focus on the business rather than the technology.

256-Bit encrypted data: The clients connect to a server component that is installed using 256-bit encryption. Data is encrypted in transit and at rest.

Thin client support: Support for thin client hardware, server virtualization as well as Citrix environments. Allows for fast and easy integration into existing IT infrastructure.

Central user administration: The Nuance Management Center makes it easy to track employee usage of Dragon, redistribute licenses based on usage, and manage or share customizations, including custom words, commands and auto-texts, across multiple users.

System requirements

- 32-bit: Windows 8.1 and Windows 10.
 - 64-bit: Windows 8.1, Windows 10, Windows Server 2012 R2 and Windows Server 2016
